

# **19u Fiber Optic Distribution Frame**

## Overview

---

Compact Fiber Optic Distribution Frame 19" 1U is a simple construction consisting of a box (with integrated front panel) and the cover. The embossments on the bottom of the ODF make it possible to organise cables and fibre-optic pigtails in an easy, functional and aesthetic way. The optical fiber ODF frame is widely used in city telephone, rural telephone network systems, data and image transmission systems, and CATV cable television series.
