

24-core optical fiber trunk line

24-core optical fiber trunk line

MPO-24 Fiber optic cables

MPO-24 is an affordable way to deploy parallel and duplex fiber optic applications. It has 24 fibers in a single connector, which is denser than using three MPO-8

How to choose the right fiber cores

For fiber-optic cables with branches, the total number of cores is equal to the number of branches multiplied by the number of cores per branch. For example, the total number of cores in an MTP®-8
