

400G High-Speed Cable for DAC Tuning

Overview

3M 9V4 series 400G QSFP-DD direct-attach copper (DAC) cable assemblies are passive copper cable assemblies that utilize 3M twin axial cable technology to create a highly flexible, foldable, high-performance solution with bandwidths up to 400 Gbps to connect servers, switches . Configuring a 400G Ethernet DAC cable for your fixed switch becomes a convenient and reliable choice. These cables provide low-latency, high-bandwidth solutions suitable for modern data center demands.

400G High-Speed Cable for DAC Tuning

What you need to know about Optcore 400G QSFP-DD DAC Cables

If you're looking for a 400G cable solution that can meet your high-speed data needs, consider Optcore's 400G QSFP-DD DAC cables. If you have any other questions, please feel free to
