

48-core Gyftý non-metallic optical cable

Overview

Features FRP strength member, PE/LSZH jacket, and operates from -40°C to $+70^{\circ}\text{C}$. GYFTY Fiber Cable is stranded filling Loose tube with non-metallic reinforcing member is the central of the cable. The structure of GYFTY (non-metallic reinforced component, loose sheath layer twisted filling type, outdoor optical cable for polyethylene sheath communication) optical cable is to sleeve single-mode or multi-mode optical fiber into the inner filled waterproof compound loose tube made of high.

48-core Gyfty non-metallic optical cable

Non-armored Waterproof Outdoor Cable GYFTY , FS

Non-armored Single-jacket Waterproof Outdoor Cable GYFTY Non-armored Stranded Loose Tube Cable features FRP as the central member, ensuring the resistance to electromagnetic interference.
