

# **90-degree elbow of cable tray 800200**

## Overview

---

GRP-Elbow 90°, large, radius 600 mm, for cable tray KK, with unperforated side rails, with integrated perforated connector plates, glass fiber reinforced polyester, pressed, RAL 7032, pebble grey Refer to the product sheets for more information on product details and. Ensure your cable tray solution is designed for your application, with our vast range of ladder tray fittings. Choose from the following: Horizontal elbows, Vertical elbows, Tees, Reducers, Cross pieces, Branches Class 1 Tray Fittings are designed for use with NEMA Classes 12B and 12C Cable Trays. The 90° Horizontal Elbow provides essential support and enables seamless cable management throughout your cable routing system. All fittings are available in sizes and types corresponding to the straight cable tray sections. 90 degree horizontal bend perforated electrical cable tray, manufactured from powder-coated steel, with a height of 50mm and a width of 300mm, used for changing the direction of cable tray by 90 degrees, produced by Habbal Alarabi factory (HEMCO).
