

# **A Serbian company that makes optical modules**

## Overview

---

Mikrotec Optika is a subsidiary of Mikrop AG from Switzerland, which operates internationally and has been developing and producing miniaturized optical systems for the highest requirements for four decades. Our company produces miniature optical lenses, which are used in medical technology. Serbia is a sovereign state situated at the crossroads between Central and Southeast Europe, covering the southern part of the Pannonian Plain and the central Balkans. Relative to its small territory, it is a diverse country distinguished by a transitional character, situated along cultural. We offer innovative MEMS solutions that help design engineers solve complex problems for 5G telecommunications.
