

APXFB Distribution Box

Overview

Distributor box, application: Standard, connection method: M12 PUSH-PULL female connector / M12 socket, number of slots: 8, number of positions: 5, coding: A, slot assignment: Double, status display: yes, PNP; master cable connection: plug-in push-in spring connection 180°. Thanks to the status indicator, you have an overview of a large number of signals. Fiber distribution box is made of high-strength engineering plastics, anti-UV, anti-aging ability. To ensure consistent performance and longevity, it is essential to adhere to strict technical specifications. It is widely adopted in FTTx cabling for both fiber cabling, provides the connection between fiber optic cables and passive optical splitters.
