

**FRINDEL OPTICS**

# **Add protection to the distribution box**

## Overview

---

Include protection devices like breakers, fuses, and surge protectors—each circuit should have its own protection. As the "nerve center" of the power system, the security of the distribution box is directly related to the stable operation of equipment and personnel life safety. But what exactly is a power distribution box, and why is it so essential in our daily lives?

The DB panel board controls the flow of electricity. Its function is to protect the magnetic ring with high magnetic permeability on the power supply or signal line.

## Add protection to the distribution box
