

African Fiber Optic Cable Junction Box

Overview

It integrates fiber splicing, splitting, distribution, storage, and connection functions, providing strong protection and efficient management for FTTX network construction. The Acconet AC-FIB-DJ-24 is a 24-port fibre optic dome joint designed for high-density campus and enterprise deployments. This device integrates a 24-port SFP+ uplink and 24-port SFP downlink, enabling full duplex fibre connectivity. This terminal box is used in FTTX communication network systems to connect incoming cables to downstream branch cables at the terminal point. The Fiber Termination Box, Fiber Optical Terminal Box 12 Core FTTH Indoor Outdoor Fiber Optical Splitter Box can be wall mounting or pole mounting, indoor and outdoor use; connect and adjust the armored and drop cable by the SC fast field installation connector and SC fiber optic adapters.

African Fiber Optic Cable Junction Box

6C FIBRE DISTRIBUTION BOX

Made from high-quality weather-resistant ABS plastic, the KB6 supports up to 6 fibre optic terminations with compatibility for SC/APC, SC/UPC, LC/APC, and LC/UPC adaptors.
