How hot does the SFP+ RJ45 transceiver get? : r/Ubiquiti

I just tried touching the part of 10GB module that's visible in my aggregation switch, and I can hold my finger on it for only a few seconds. Both switches are adequately cooled.

SFP Modules

Moxa's small form-factor pluggable transceiver (SFP) Ethernet fiber modules provide 10 Gigabit, Gigabit, and Fast Ethernet in order to ensure coverage across a range

Industry Developments: Cooling QSFP Optical

The tests results showed that the denser the heat sink pins or fins on the sink closest to the incoming air, the hotter the farthest away QSFP will be.

comparatively cool 10GbE SFP+ transceivers : r/homelab

I need recommendations for comparatively cool 10GbE SFP+ transceivers. Like, thermally cool, not merely groovy. ? I know they'll all run hot compared to fiber, but there's hot and then there's ??? HOT ???. I
