

Air switch for household distribution box

Overview

1, the general switch of the household distribution box can generally choose double-pole 32-63A small air switch or isolation switch. High quality guarantee: the surface-mounted fuse box is mainly made of high-quality nylon + ABS + PC material, which is flame retardant, impact resistant, of high hardness, not easy to break or damage, and ensures long-term use. ****Power-off operation**** - Before installation, be sure to cut off the total power supply of the household. For the 2025 holiday season, eligible items purchased between November 1 and December 31, 2025 can be returned until January 31, 2026. General small air switch specifications are mainly divided into 6A, 10A, 16A, 20A, 25A, 32A, 40A, 50A, 63A, 80A, 100A, etc. by rated current; In order to ensure safety and reliability, the rated operating current of electrical components should generally be greater than 2 times the required maximum.
