

Andorra Aggregation Switch 40G

Overview

The ECS5520 series consists of two switches with sixteen 10GbE SFP+ ports or 10GBASE-T ports and two 40GbE uplink ports. Arista delivers the most efficient, reliable and high performance Universal Cloud Network architectures based on 10G, 25G, 40G, 50G, 100G and 400G platforms delivered with. FS 40Gb Switches offer high bandwidth, network virtualization, and redundancy, ensuring efficient deployment for campus core and distributed networks. Suitable for small & medium enterprise core, or large-scale campus network aggregation switch Suitable for SME network core and large-scale network aggregation, 20 x 10GE ports and 4 x 25GE ports for flexible access, 2 x 40GE ports for high-performance uplink The VSU connects to peripherals through. ONIE provides the option to install a preferred Network Operating System, such as Pluribus Netvisor OS, or activate the pre-loaded D-Link OS. The Cisco Meraki MS450 brings powerful high-bandwidth switching to the aggregation layer.
