

Are Huawei s optical splitters any good

Overview

The Huawei OSPL43201 is a highly efficient optical splitter designed for even splitting of optical signals at a 1:4 ratio. Featuring an SC/APC termination with a compact size of 60x7x4mm, this product is an excellent choice for high-performance fiber optic network deployment. In 2015, some vendors implemented drop cable pre-connection by connecting fiber drop cables to fiber access terminals (FATs).
