

Are cable tray hangers or supports better

Overview

They are ideal when you have limited floor space and need a more out-of-the-way way to support your cable tray. Wall-mounted supports are used for situations where cable trays need to be attached to a wall. When developing our cable support OBO can offer reliable solutions for systems, three attributes are at the routing and fastening cables securely core of what we do: efficiency, resili- for each of these installation challenge-ience and safety. This publication is intended as a practical guide for the proper and safe* installation of cable ladder systems, cable tray systems, channel support systems and associated supports. Whether you're running power cables, data lines, or control wiring, the right choice between cable trays, baskets, ladders, and trunking can save time, reduce maintenance, and extend system.

Are cable tray hangers or supports better

Cable Tray Systems: Requirements and Best Practices

Cable trays must be adequately supported to carry the weight of cables plus any additional loads (such as snow or ice for outdoor installations). Use supports (wall brackets, trapeze
