

Armored Single-Mode Dual-Core Fiber Optic

Overview

The armoured patch cord is engineered for environments where a standard patch cord would be prone to damage. Our 2-core single-mode armoured fiber optic patch cord provides enhanced protection against physical stresses, ensuring signal integrity and durability in demanding settings. Protect your data connections and network installations with our indoor/outdoor tight buffered. This protection is often in the form of a layer of metal armor or a reinforced plastic coating. Rugged Outdoor Durability---- The Industrial TPU Jacket features strong tensile strength, high abrasion resistance, waterproof, high and low-temperature resistance, UV-resistant, and bending resistance. 48 Core Fiber Optic Cable GYTY53 Outdoor Armored Double Jacket Waterproof Gel Filled loose tube direct burial is used for direct buried underground, it suit for long distance and LAN fiber communications, we supply both the single mode GYTY53 cable and multimode GYTY53 cables.
