

Austria Base Station Energy Solution 100kW Solution

Overview

This 100KW 215KWH C&I BESS cabinet adopts an integrated design, integrating battery cells, BMS, PCS, fire protection system, power distribution system, thermal management system, and energy management system into standardized outdoor cabinets, forming an integrated. The CTECHI 100KW 215KWH 230KWH 241KWH energy storage system is a high-performance and versatile solution designed to address energy demands in commercial and industrial applications. With advanced LFP battery technology and smart energy management, this system ensures efficient and reliable energy. MEGATRON 100kW Battery Energy Storage Systems have been created to be a install ready and cost effective on-grid, hybrid, off-grid commercial/industrial energy storage system. Each system is designed and shipped with the batteries pre installed utilizing UN 3536 shipping standards.
