

# **Austrian Flame-Retardant Optical Cable**

## Overview

---

Available in both multimode (OM3/OM4) and singlemode (OS2) variants, they support configurations from 4 to 24 cores in a durable central loose tube design. Meeting stringent international standards, these cables are tested for both fire resistance (IEC 60331-25) and flame. The cable has a design that ensures operation for more than 3 hours in fires up to 1000 °C. Our fire resistant/fire survival cables feature a steel wire/steel wire braiding/corrugated steel tape armour to provide mechanical strength. It also operates in the Chemistry, inorganic - raw materials and derivatives, Chemistry, organic - raw materials and derivatives, Flame retardant construction materials, Chemistry.

## Austrian Flame-Retardant Optical Cable

---

### Flame-retardant optical cable

Find your flame-retardant optical cable easily amongst the 51 products from the leading brands (LEMO, LAPP, SAB, ) on DirectIndustry, the industry specialist
