Belarusian Optical Separator 2-core

Belarusian Optical & Laser Industry

In the former Soviet Union it was specifically designed as a mass manufacturer of optical elements. Only optical elements are manufactured here - lenses, prisms, flats etc.

Polarization Beam Splitter With Different Core Widths and Its

By utilizing the core-width dependence of the birefringence, we have successfully demonstrated a 0.75%-? polarization beam splitter (PBS) with an operating wavelength range of

Your Go-to Guide to Optical Splitter

The optical splitter is an optical power distribution device that splits one optical signal into multiple optical fiber signals to achieve multichannel transmission.
