

# **Burundi Gigabit Single-Mode Optical Module**

## Overview

---

25Gb/s Data Rate 20km Range The 1000Base-LX/LH SFP Transceiver is a high-performance 1.25G single-mode SFP LC module designed for seamless integration with a variety of networking equipment. They do this by using Wavelength Division Multiplexing (WDM) to carry upstream and downstream signals at different wavelengths on the same fiber. Optical modules complying with SFP (Small Form-factor Pluggable) standard are devices converting electrical signal to the optical form and optical signal to the electrical form. Usage media converters with the ability to exchange SFP modules is particularly preferred because of its versatility, for.

## Burundi Gigabit Single-Mode Optical Module
