

Cable Tray Steel Structure Fabrication

Overview

Structural design of a modular steel cable tray support system using HSS members, including overall framing layout, member sizing, connection detailing, and segmentation into repeatable assemblies suitable for off-site fabrication. These racks safely support and organize electrical cables, ensuring durability, accessibility, and safety. A fabricated structure consisting of integral or separate longitudinal rails and a bottom having openings sufficient for the passage. Expert Fabrication manufactures and installs precision Cable Trays, Cable Ladders, Unistrut Channels, HVAC ducting, Switchgear, Threaded Rods, and Solar Structures. We provide the critical support systems that power and protect your building projects. A cable tray system is an assembly of metallic cable tray sections and accessories, that forms a rigid structural system to support cables.

Cable Tray Steel Structure Fabrication

Cable Tray , PT Surya Cakra Mandiri , 20+ Years Experience

SCM Cable Tray manufacturer & supplier in Indonesia. Aluminum, steel, and stainless steel trays with galvanized finishing for secure cable management in industrial settings.
