### Electrical Penetrations

We offer a complete range of internationally tested and approved firestopping products for evolving electrical penetrations such as telecom, Datacom and

[Contact Us](#)

### Trunking & Cable Trays

Fireproof pillows, pads and wraps for trunking. Intumescent pads are adhered to the inside of steel, UPVC and PVC electrical trunking where it passes through fire

[Contact Us](#)

### Cable transit frames and penetration sealing systems

Seal cable penetrations with our modular firestop solutions, designed to create water-, smoke- and gas-tight barriers in energy and industry projects both

[Contact Us](#)

### Cable Tray Covering & Fire Protection

Build fire-rated enclosures around tray runs, transitions, and penetrations to block flame and smoke movement. Integrate coverings with existing fireproofing and firestopping systems for full compliance

[Contact Us](#)

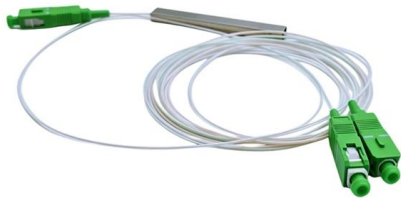

## Fire protection for cables & cable trays , Flamro

Fire protection solutions to protect cables, cable trays and cable systems. Discover our tested cable coatings and fire protection bandages!

[Contact Us](#)

## Cable penetration seals according to European Standards

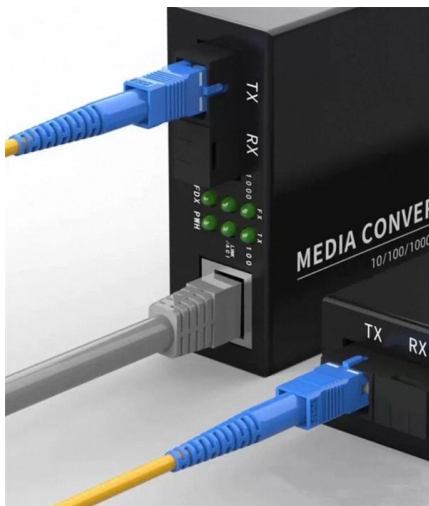

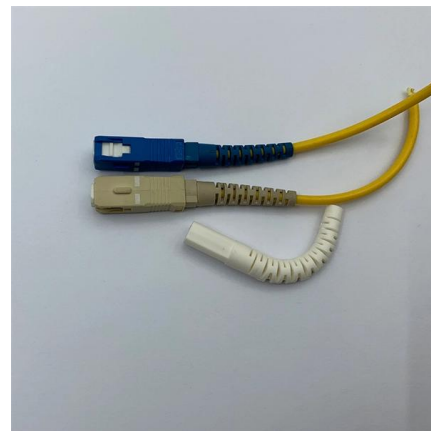

Cables, cable bundles, conduits, bundles of conduits, empty pipes, cable trays and cable ladders may also pass through penetration seals in walls and floors and

[Contact Us](#)

## Technical Guidelines for Cable Tray Installation and

When cable trays pass through walls or floors, seal openings using fire-rated penetration sealing materials. Only use fireproof trays for flame containment or

[Contact Us](#)

## Firestopping Requirements for Cable Trays and

Cable trays and busways at floor level or at slab penetrations shall have a waterstop no less than 50 mm in height. At slab penetrations, provide

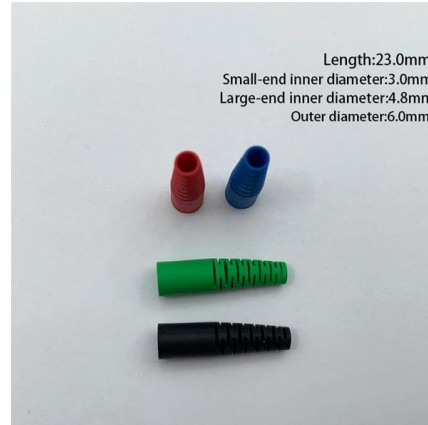

[Contact Us](#)

## Fire sealing cable penetrations

Fire sealing of cable penetrations is required by building regulations. In case of a fire, these cable services will melt and leave openings in the walls or floors, allowing
