

Can a plug-in fiber optic router be used

Overview

Yes, you can often use your existing router with fiber optic internet, but there are crucial considerations. Understanding compatibility, potential limitations, and when an upgrade is necessary will ensure you get the most out of your high-speed connection. Q: Can I plug a fiber optic cable directly into a router?

A: Only if your router has an SFP port designed for fiber. Instead of a modem, fiber connections require an Optical Network Terminal (ONT), a device that converts fiber signals into an Ethernet connection.

Can a plug-in fiber optic router be used

What type of cable is this (optic fiber) connecting to router?

It is a 'standard' single-mode fiber cable with an SC-APC connector at the end. It's meant to connect to an ONT or ONR from your wall. You can't 'really'
