

# **Customized Modular Data Center High Density**

## Overview

---

Explore our pioneering modular systems engineered for extreme density, rapid deployment, and ultra-efficient operation. Fast-track your infrastructure deployments—up to 180 MW capacity delivered within weeks at a fraction of conventional construction costs. Built for demanding sites and on-prem workloads, our prefabricated modular data center solutions deliver 5–150 kW per rack. Leveraging over 20 years of expertise and partnerships with leading component manufacturers, we deliver customized, scalable.
