

# **Democratic Republic of Congo Optical Cable Project**

## Overview

---

5 million) fibre optic cable project, aiming to establish the nation as a digital hub in Central Africa. This initiative is set to significantly enhance Internet penetration across the DRC. 5 million people living in the eastern regions of the Democratic Republic of the Congo (DRC) will benefit from faster, cheaper and more reliable digital connectivity thanks to new fibre-optic network investment being rolled out by Bandwidth and Cloud Services Group (BCS) and backed by OTTs and telcos, such as Facebook or Orange, supported by funders and African governments, have joined forces to accelerate the deployment of high-speed connectivity infrastructures. The European Investment Bank (EIB) announced, Saturday, a warrant agreement with the wholesale telecommunications infrastructure provider Bandwidth and Cloud Services (BCS).

## Democratic Republic of Congo Optical Cable Project

---

### Construction of fibre-optic cables in the Democratic Republic of Congo

The project consists in the construction of 10,000 km of fibre-optic cables as part of a regional backbone in 5 countries, including backbone as well as metro networks. The 5 countries covered by the project
