### Provision a pool in a virtual network

Overview  
Why use a Virtual Network?  
Prerequisites  
General virtual network requirements  
Pools in Virtual Machine Configuration  
Pools in the Cloud Services Configuration  
Create a pool with a Virtual Network in the Azure portal  
User-defined routes for forced tunneling  
Next steps  
When you create an Azure Batch pool, you can provision the pool in a subnet of an Azure Virtual Network that you specify. This article explains how to set up a Batch pool in a Virtual Network. See more on [learn.microsoft.com](#)
