

Detailed Design Drawings of Intelligent Distribution Box

Overview

Discover our detailed DWG file and CAD Block of an Intelligent Control Distribution Box for Hotel applications. This expertly designed drawing is ideal for electrical engineers and architects working on hotel automation and smart building projects. AIMS AND OBJECTIVES The aim of this work is to design and construct a 60A smart distribution board that offers advanced load monitoring, efficient load management, and automation capabilities for optimized electrical distribution in residential, commercial settings and can be designed for. Interconnect/distribution box systems provide in-flight experiences to commercial airline passengers worldwide. Our reference designs and integrated circuits enable innovation on performance and size, weight and power (SWaP) reduction in IFE monitors and other peripherals.

Detailed Design Drawings of Intelligent Distribution Box

WO2024255014A1

The present invention provides an intelligent distribution box and a signal transmission method.
