

Diameter of 8-core outdoor single-mode optical cable

Overview

Imm (main cord) Material Stainless Steel Color Silvery White UL94 V-0 (*Burning stops within 10 seconds on a vertical specimen, no drips of flaming particles. Specifications are correct at time of printing and subject to change or alteration. Core size determines performance: Single-mode (9 μm) is ideal for long distances; multimode (50 μm or 62.8 Core GYTC8S Fiber Optic Cable Armor Stranded Loose Tube Steel Wire Strength Waterproof Figure 8 Self Supporting Outdoor GYTC8S is a typical self supporting outdoor fiber optic cable, suitable for aerial applications; The cable has nice moisture resistance performance and crush resistance. In fiber-optic communication, a single-mode optical fiber, also known as fundamental- or mono-mode, is an optical fiber designed to carry only a single mode of light - the transverse mode. The Starlight SWA Single Mode OS2 9/125 Fibre Cable is suitable for direct burial installations making it the perfect solution for harsh environments (Read more) The Starlight SWA Single Mode OS2 9/125 Fibre Cable is suitable for direct burial installations making it the perfect solution for the.
