

Distribution box adat

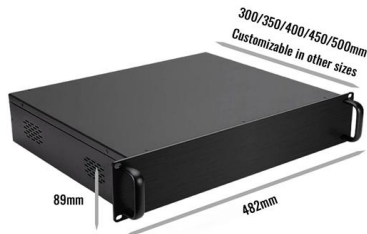

Overview

The DIF-AT converts signals between R-BUS and ADAT/Tascam for up to eight channels of simultaneous digital I/O in a 1/3U rackmount box. This interface is the perfect solution for VS-2480 and V-Mixer owners who wish to integrate their system with other professional equipment using. Each cable box includes 2 soft slide-in data lead-ins and 1 slide-in blind cover'. The ADI-648 thus combines the world's most successful multi-channel interface with the professionals' exclusive high-end interface. The distribution box (DB box) helps safely and efficiently distribute electrical power.
