

# **Distribution box circuit breaker shielding box**

## Overview

---

A distribution board (also known as panelboard, circuit breaker panel, breaker panel, circuit breaker, electric panel, fuse box or DB box) is a component of an electricity supply system that divides an electrical power feed into subsidiary circuits while providing a protective. Techna offer a wide range of Plastic Distribution Boxes and Plastic Protection Windows available for up to 18 modules. Our distribution boxes are available in a variety of stylish and ergonomic designs to suit any application and our protection windows are designed to protect and shield circuit. Connect these boxes to a main box—they do not have a main circuit breaker switch. They are single-phase, 3-wire, and can be mounted for top or bottom feed conduit connections. Need help?

Electrical panel boxes, aka breaker boxes, can be on a wall in an out-of-the-way area of your home.
