

# **Distribution box model and specifications xxm**

## Overview

---

XXM low-voltage lighting distribution box is suitable for single-phase and three-phase circuits with frequency of 50Hz, rated voltage below 400V, and load current not more than 100A. They can be designed for either surface-mounted wall installation or concealed recessed installation based on user requirements. XM Cabinet is widely used in lighting distribution systems of power station, transformer station, factory, mine, hotels, apartment, buildings, port, railway station, airport, warehouse, hotels etc.
