

Distributor Micro-module Explosion-proof Type

Overview

The enclosures are certified Ex d IIB+H2 and Ex tb as well as "explosion-proof". They are available in many sizes, a wide range of operating elements and monitoring functions can be integrated. STAHL's system solutions allow electrical energy to be safely distributed and controlled in hazardous areas. Reliable power distribution increases both system availability and the safety of personnel and systems. These products are specially designed for use in potentially explosive areas and, thanks to their high safety standards, can make a significant contribution to preventing accidents resulting in personal injury and damage to.
