

# **Do I need to replace my router with a gigabit fiber optic connection**

## Overview

---

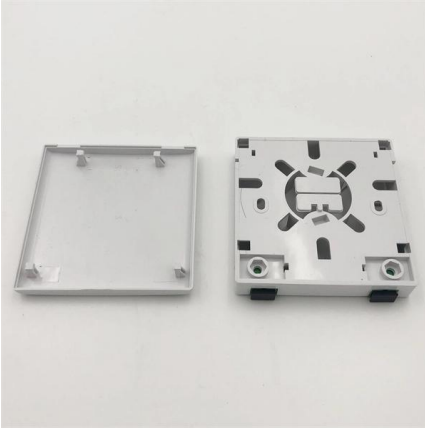

When selecting a router for fiber optic internet, ensure it is a "fiber compatible router" with a Gigabit WAN port. Below, we discuss seven common signs that you might need a new router and explain how to choose the right kit for your needs. Do I need to change my router for fibre gigabit?

Hey guys, I'm finally getting a fiber gigabit connection on wednesday and currently have the Fritzbox 7560, which has 4 gigabit lan ports and supports wifi up to 860 mbit/s. Full Fibre connections involve fibre-optic cables running directly into your home, delivering higher speeds and more consistent connectivity than traditional broadband.
