

ECL optical communication equipment

Overview

External cavity laser diodes (ECLs) are lasers with a very small line width, very good wavelength stability, and very low noise. This instruction describes the installation of the Eclipse® Rear Fiber Management System (ECL-RFM-F and ECL-RFM-I) manufactured by Corning Optical Communications. The Eclipse® Hardware wall-mountable connector housings provide interconnect or cross-connect capabilities between the outside plant, riser or distribution cables and the opto-electronics. We work in all areas across our sectors, but we have particular expertise in digital and interactive services, including mobile. This has expanded our client base to include a range of companies that need to find their space in these emerging markets –. Fiber Optic Patch Panels - Unloaded: Type - Fiber Patch Panel; Mounting - Rack; Outlet Type - Adapter Modules; Size - Rack Units - 4U; Size - WxHxD Imperial - 17.
