

# **Elevator traveling fiber optic cable model**

## Overview

---

The utility model discloses an optical fiber communication travelling cable structure for an elevator, comprising an insulation outer liner, two cable beams in the insulation outer liner, wherein the cable beam comprises a plurality of wire cores for transporting the. Draka offers a complete product portfolio including flat travelling cables that merit the prestigious EZu hAR conformity mark and the En 50214 standard in our facility in velke Mezirici, Czech Republic. This most modern of facilities has passed TÜv quality audits conforming to ISO 9000 and 14001. Our ERB series of rope brakes (ERB10, ERB20, ERB35) are the latest design in safety technology. 5 mm<sup>2</sup> power cores, dual CAT6 Ethernet elements, and a 4-core fiber optic unit for ultra-high-speed connectivity in smart elevators.

## Elevator traveling fiber optic cable model

---

### Draka Elevator Catalog

Electrical cables (and in this case, travelling and stationary cables for elevators) are assigned a nine-place designation that explains their relation to existing standards, voltage, and construction details.
