

Energy-saving DAC high-speed cable original and genuine product

Overview

100G DAC Cables (QSFP28) are cost-effective, pre-terminated twinax copper assemblies designed for short-reach high-speed interconnects in modern data centers, enterprise networks and SANs. 100G Direct Attach Cables Support 100GBase-CR4 / 4×25G channel operation, provide ultra-low. Short Distance Wiring 1 100G QSFP28 DAC high speed cable equivalent to 2 optical modules and 1 fiber optic jumper, which is more energy saving and consumes almost 0 power. High-speed I/O passive cable assemblies that can deliver data rates as high as 400 Gbps with a variety of lengths or customized options for greater design flexibility. The Quad Small Form-factor Pluggable Double Density (QSFP-DD) Interconnect Solution is specifically designed to meet high-density. Production is focused on WiFi Antennas, Pigtails, PoE Injectors, PoE Panels, SFP Modules and more. The Volex DAC cable product family includes cable assemblies with Small Form-factor Pluggable (SFP), Quad Small Form-factor Pluggable (QSFP), and Octal Small Form-factor Pluggable (OSFP) single and double density modules.
