

Example of Calculating Pigtail Quantities

Example of Calculating Pigtail Quantities

How do you count conductors that are pigtailed (box fill)?

You did not state the wire size so see my answer for a better explanation if you don't have a ground, only hot and neutral your box fill for 14 awg would be 4 x 2 or 8

Box Fill Calculator

For example, if you have four 14 AWG and two 12 AWG grounding conductors, you only count 2.25 cubic inches total (based on the 12 AWG), not 6 separate conductors. This is one of the most

Metal Box Bonding Pigtails Box Fill

A bonding pigtail is a short conductor used to connect that metal box, a device yoke, or a grounding splice so the fault-current path remains continuous. Box fill is the NEC 314.16 method for
