

Factory Fiber Optic Cable Construction Drawings

Overview

Download CAD drawings for our Fiber and Copper products Search by part number or description such as CAT5, CAT6, OSP, etc. (FOA) was founded in 1995 to help develop the workforce to build the fiber optic networks to support a rapid expansion in communications and the Internet. It includes first determining the type of communication system (s) which will be carried over the network, the geographic layout (premises, campus, outside. For telecom project managers, ISP procurement teams, factory investors, production managers, and fiber optic engineers, understanding how to build a fiber.
