

Fiber Optic Cable Extension Management

Overview

Map, plan, design and manage any fiber-optic network infrastructure with PATCH MANAGER suite of features! With PATCH MANAGER you can manage every detail of your outside plant fiber network's physical infrastructure. Effective fiber optic cable management helps you ensure stable networking and high-speed data transfer. [June 28, 2023] Network engineers face several challenges when it comes to managing fiber optic cabling. Some of the most common pain points include the need for cable managers that can work both vertically and horizontally, a rigid but flexible enough product that works in a dynamic environment.
