

Fiber Optic Cable Junction Box 256 cores

Overview

Fiber Optic Splice Closure 256 Core Joint Box model SP-GJS-256 It is a universal access junction box that allows the continuity and segregation of medium capacity optical cables used in the deployment of optical power and transport networks. It must be used in the construction of fiber optic networks and is one of the very important pieces of equipment. The design of the box allows the mechanical continuity of the tensile elements of the cables.
