

Fiber Optic Tail Specifications

Overview

Pigtails are available in LC, MT-RJ, SC and ST-style versions with both singlemode and multimode 900µm buffered fiber types. Hubbell's fiber optic pigtails are manufactured with superior quality connectors, factory polished to provide low insertion loss and low back reflection. PPC offers sets of high-performance pigtails colored in compliance with TIA-598-C standard for all types of fiber optic networks.

Fiber Optic Tail Specifications

Specification for Optical

This specification defines the requirements for an optical fibre internal cable containing a single optical fibre for use in transmission systems up to 565 Mbit/s, between the cable termination point and the
