

Fiber Optic Transceiver 100Mbps Multimode

Overview

A 100BASE FX SFP transceiver enables Fast Ethernet transmission over multimode fiber, typically operating at 1310nm and supporting distances up to 2km. While Gigabit and higher-speed optics dominate modern data centers, many control systems, surveillance networks, transportation infrastructure, and 100 Mb/s Fiber Optic Transmitters, Receivers, Transceivers are available at Mouser Electronics. Westermo offer multimode and singlemode options with transmission speeds ranging from 100 Mbit/s to 10 Gbit/s. Our transceivers feature Digital Diagnostic Monitoring (DDM) for real-time performance tracking, Bidirectional (BiDi) for cost-effective single fiber use, Coarse Wavelength Division. They are hot-swappable, Small Form Factor Pluggable (SFP) compliant with the Multi-Source Agreement (MSA) specification.
