

# **Fiber optic cable runs in horizontal cable tray**

## Overview

---

While there are several specific types of listings for power cables, specifically for tray applications, there is no equivalent tray rating for optical fiber cables. The purpose of this AE Note is to outline the use of fiber optic cables in "tray rated" environments. Our Fiber Cable Tray System is a comprehensive raceway solution for data center, enterprise, central office, and mobile switching center applications. Cable tray is a raceway system designed to protect and route fiber optic patch cords, multi-fiber cable assemblies and intrafacility fiber cable to and from fiber splice enclosures, fiber distribution frames and fiber optic terminal devices AZE offers a variety of styles, materials and finishes.
