

# **Fiber optic single-mode single-fiber connector**

## Overview

---

are used to join optical fibers where a connect/disconnect capability is required. Due to the sophisticated polishing and tuning procedures that may be incorporated into optical connector manufacturing, connectors are generally assembled onto optical fiber in a supplier's manufacturing facility.

## Fiber optic single-mode single-fiber connector

---

### Single-mode optical fiber

Optical fiber connectors are used to join optical fibers where a connect/disconnect capability is required. The basic connector unit is a connector assembly. A

OverviewConnectorsHistoryCharacteristicsFiber optic switchesQuadruply clad fiberExternal links

Optical fiber connectors are used to join optical fibers where a connect/disconnect capability is required. The basic connector unit is a connector

assembly. A connector assembly consists of an adapter and two connector plugs. Due to the sophisticated polishing and tuning procedures that may be incorporated into optical connector manufacturing, connectors are generally assembled onto optical fiber in a supplier's manufacturing facility. However, the assembly and polishing operations involved can be performed in t
