

Fiberglass cable tray piping

Overview

FRP Cable Trays are non-metallic support systems for routing electrical and data cables in industrial and commercial facilities. Eaton's fiberglass cable tray is approved by the American Bureau of Shipping (ABS) Building and Classing Steel Vessels 4-8-4A1/9. It is manufactured from fiber reinforced polyester or vinyl ester resin so it has high corrosion resistance, long. Enduro cable tray (sometimes called cable ladder) sets the industry standard for high-quality fiberglass cable tray. Subject to the corrosive conditions inherent in petroleum products, plus the daily punishment of exposure to wind, weather, and saltwater.
