## Optical attached cable

OverviewUsesEtymologyHistoryTechnologyLashe d cableAlternativesIn the media

Wrapped cable systems are used in building telecommunications networks over power utility rights of way. This is an attractive concept for many power utilities because it means that the communications network is under their own control and can be tailored to meet their particular requirements with suitable attributes such as redundancy, latency and bandwidth.

Once built, the network is relatively inexpensive to operate compared to rental charges previously paid to phone companies. The network connects direct
