

# **Gf004 Fiber Distribution Box**

## Overview

---

Fiber distribution box is made of high-strength engineering plastics, anti-UV, anti-aging ability. It provides protection and management for fibre cables, and be used for terminating, cable branching, cross connection, and splitting. 1 Description Pre-connectorized optical distribution box as the most advanced FTTX network distribution node equipment, provide quick and reliable connection, good protection and management for the FTTX network. The distribution box is sealed adopts buckle + two screw type structural seals, and the left and right turnover structure of the housing is opened.
