

Global Energy Interconnection Egypt Branch

Overview

The Global Energy Interconnection (GEI) Journal publishes original research on theories and developments as well practical applications on principles of large scale low carbon energy generation, transmission, distribution & storage technologies, global energy interconnection & system developments.

Mohamed Elbadri, Ambassador of Egypt to China, at GEIDCO headquarters in Beijing. Global energy interconnection (GEI) represents the ultimate evolution of the trend towards greater interconnection of power systems. CAIRO - 21 February 2019: The Egyptian electricity sector signed a memorandum of understanding and a cooperation agreement with the Global Energy Interconnection Development and Cooperation (GEIDCO), said Electricity Minister Mohamed Shaker.
