

Grenada Bridge Bend

Overview

The evidence for a Roman presence is unclear but archaeologists have found remains of ancient foundations on the Sabika hill. A fortress or citadel, probably dating from the Visigothic period, existed on the hill in the 9th century. According to surviving documents from the era, the red castle was quite small, and its walls were not capable of deterring an.

The evidence for a Roman presence is unclear but archaeologists have found remains of ancient foundations on the Sabika hill. A fortress or citadel, probably dating from the Visigothic period, existed on the hill in the 9th century. The first reference to the Qal'at al-Hamra was during the battles between the Arabs and the Muladies during the rule of 'Abdallah ibn Muhammad (r. 888-912). According to surviving documents from the era, the red castle was quite small, and its walls were not capable of deterring an
