

# H3c1303a optical module

## H3c1303a optical module

---

### Support

Insert PoE optical transceiver modules only into the photoelectric hybrid ports (PSFP or PSFP+ ports). To connect the photoelectric hybrid ports, use hybrid copper-fiber cables with fiber PoE patch cords.

### 1.25 Gbit/s SFP/eSFP Optical Module

You can use different levels of 1.25 Gbit/s SFP/eSFP optical modules with GE interfaces and 10 GE interfaces. The wavelength of common 1.25 Gbit/s SFP/eSFP optical modules can be 850

### Fibre Optic Transceiver Module & Cable Solutions

FS optical transceiver/cable solutions provide global telecom/data center operators with ability to implement optical connectivity at data rates up to 400Gb/s and link distances up to 160km.

**MaxLink 1.25G SFP optical SFP modul, SM, 1310nm, 20km, 2x LC**

Maxlink ML-S31D-20-H3C is a 1.25G SFP module with a 1310nm wavelength, two LC connectors, and a maximum transmission distance of 20km over single-mode optical fiber.

## H3C Transceiver Modules User Guide

**Data rate** Data rate is the number of bits transmitted per second. The unit of measure for data rate is Mbps (Megabits per second) or Gbps (Gigabits per second). Optical transceiver modules available

### Fiber Optic

**Fiber Optic** The innovative optical fiber modules from motrona ensure reliable transmission of encoder signals over distances of up to 3000 m. They are resistant to extremely strong electromagnetic fields

[Contact Us](#)

### Support

To identify whether the transceiver module type matches the optical fibers, see H3C Transceiver Modules User Guide. If they do not match, replace the optical fibers.

## Huawei Technical Support

Discover how to view the serial number of an optical module with step-by-step guidance from Huawei Technical Support.

[Contact Us](#)

## Support

You can choose optical modules as needed for data transmission over optical fibers. The optical modules include optical transmitters, optical receivers, transceivers, and transponders.

[Contact Us](#)

## Installing Optical Transceivers and Connecting Optical Fibers

Before connecting optical fiber cables, read the following precautions: Do not overbend optical fibers, and the radius should not be shorter than 40 mm. Do not bundle the optical fibers too tight.
