

High Temperature Resistant CFP2 Original Product

High Temperature Resistant CFP2 Original Product

Amphenol CFP2 & CFP4

Both are 0.6mm pitch with the CFP2 having 104 positions and the CFP4 having 56 positions. They are rated for 28 Gbps per channel with resonance dampening for improved signal integrity. Both the

CFP2

Rated for 25 Gbps per channel with resonance dampening for improved signal integrity, CFP2 has up to 60% lower power consumption versus CFP. An optional riding heat sink ensures proper thermal

[Contact Us](#)

Contribution Number:

The analyses showed that through the combined actions of separating air streams, increasing flow velocity at the plugs, keeping high dissipation components located away from
